NO SCORING FOR WRESTLING TECHNIQUES !!!!!!!

The “Nossow-Throw” cannot be evaluated !

The Nossow -Throw is a classical wrestling technique. There are two variations:

First variant: Tori is falling, too.

At the start of the upward movement (picture 1) matte should be given. Should matte be given too late it will be considered as an allowed movement from Tachi-waza to Ne-waza but no score can be given!

Second variant: Tori stays in Tachi-waza

Matte immediately (picture 1). Picture 2 no matte, the risk through mate is higher than with a throw. No score. No transition from Tachi-waza to Ne-waza. After the throw mate should be given.

Transition from Tachi-waza to Ne-waza possible. Better to give mate!
